

MASTIC ADHESIVE SEALING COMPOUND

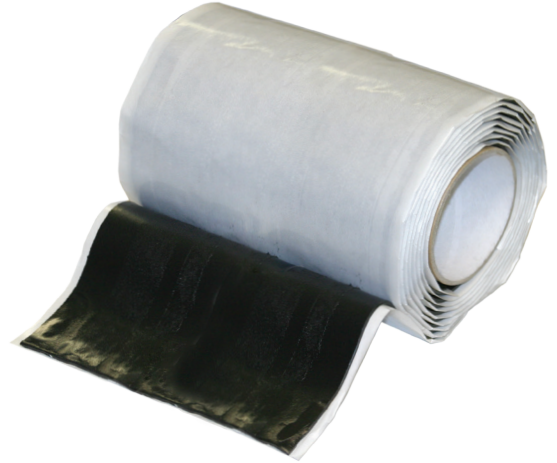

Handy Roll of Mastic Sealing Material with Multiple Uses.

DESCRIPTION

This tacky, black flexible mastic sealant is effective for many different jobs. Stays flexible for a long time even when the roll is exposed to sunlight. It's intended use is primarily under satellite antenna mounts when the securing lag screws need to be sealed from moisture penetration. The sealant can also be used to wrap around exposed low-voltage fittings. The caulk around drilled holes keeps out bugs and moisture. Sealant tape can be removed if necessary.

FEATURES

- Flexible butyl rubber used as a moisture sealant for lag screws
- Serves as a moisture barrier to protect low-voltage connectors
- Flexible and durable
- UV resistant
- Really tacky surfaces
- Seals up drilled holes
- Many convenient purposes
